Dear Parents,

It's the time to rejuvenate and share the special bond with your family and friends. I am sure the children are going to enjoy the summer vacation which is the much needed break after the yearlong hard work.

Like last year, would you like to see your child self-learning during this summer break also?

For all the parents who have joined us this April, let me introduce the project KhariKamai (earning through honest labour). The project aims at the concept of working hard and earning money. KhariKamai also teaches the value of money and the fact that lot of slogging is needed to earn some. The money earned by students can go towards their savings/pocket money or for opening their account with bank.

KhariKamai can be done through gardening, cleaning cupboard, helping in cooking etc. A child should not be paid more than Rs 20/-for an hour's work. Please find below a list of jobs that children can do and the amount of money that can be paid as KhariKamai. This list is for your reference; children can do other jobs and can be paid accordingly.
